

STSM for researchers

February 05 - 09, 2024 Rostock

Dr. Dragana Miladinović and Dr. Aleksandra Radanović from IFVCNS visited UROS for performing phenotyping for drought tolerance in *in vitro* conditions.

We had fruitful discussions as well as nice lecture from prof. Herburger about the changes in the cell wall structure occurring during stress exposure.

STSM for researchers

April 01 - 27, 2024 Jülich

Dr. Aleksandra Radanović and Dr. Boško Dedić were trained in state-of-the-art non-invasive phenotyping approaches developed at FZJ. Sunflower root phenotyping experiment was performed using FZJ facilities and IFVCNS sunflower genotypes.

Phenotyping Workshop and Training School

March 04 - 08, 2024 Jülich

Two great events were organized in March at FZJ:

- Workshop: "Non-invasive plant phenotyping approaches and research infrastructure management", and
- Training School: "Phenotyping summer school".

Researchers from CROPINNO partner institutions were delighted to expand their knowledge in the field of plant phenotyping.

Expert Communication in Science Training School

May 14 - 16, 2024 Cordoba

CROPINNO members had the opportunity to improve and perfect their communication skills during a 3-day training school organized by CSIC. The topics covered were versatile from addressing the scientific community to reaching out to the general public.

On-line training for research administrators from IFVCNS

May 29, 2024 Novi Sad

IFVCNS staff attended an online training: Scientific Management “Membership of international scientific entities as an international tool”.

Reaching out to our stakeholders

May 18 - 23, 2024 Novi Sad

CROPINNO communicating with farmers at 91. International Agricultural Fair in Novi Sad, where Institute of Field and Vegetable Crops organised panel discussion "How to overcome a dry year - practical tips for a successful harvest".

February 2024, Sombor

CROPINNO was presented to farmers in Sombor area at Agricultural extension service.

CROPINNO visiting other labs

June, 2024 North Carolina

Cropinno team visited North Carolina State University to expand knowledge on research relevant to Cropinno, exchange experiences with colleagues, and initiate collaborations with institutions across continents for future projects.
